

Summarizing EudraCT Clinical Trials – Enrollment [Trials CT-10]

The EudraCT (EU Clinical Trials) database provides trial records for a trial in each member county. BizInt Smart Charts tools help you identify related trials and summarize the data for all EU trials in a single row. In this example, we create a summary table showing the enrollment in each member state for each trial. Other columns show the total enrollment and other data selected from one of the records.

Pertussis Trials - Enrollment in EU (EudraCT - Oct2015)

Trial Identifier	Database	EU Trial Summary		Enrollment (Total)	Phase	Population	Study Design	
		Member State	Enrollment in State					
1. EudraCT 2004-001175-19 102247	1.1 EUDRACT link	Spain - AEMPS	345	1.1	3990	Phase III	Infants and toddlers Healthy volunteers	Prophylaxis Safety Efficacy Controlled Randomised Double blind Parallel group
	1.2 EUDRACT link	Italy - Italian Medicines Agency		1.2				
	1.3 EUDRACT link	Finland - Fimea	2490	1.3				
	1.4 EUDRACT link	Czech Republic - SUKL	300	1.4				
	1.1 EUDRACT							
2. EudraCT 2005-001288-73 104703, 104704	2.1 EUDRACT link	Austria - BASG	100	2.1	500	Phase II	Infants and toddlers Children Healthy volunteers Subjects incapable of giving consent personally	Prophylaxis Safety Dose response Controlled Randomised open, partially double-blind
	2.2 EUDRACT link	Germany - PEI	400	2.2				
	2.1 EUDRACT							
3. EudraCT 2005-003508-12 010	3.1 EUDRACT link	Belgium - FPS Health-DGM	100	3.1	522	Phase IV	Infants and toddlers Healthy volunteers	Safety Controlled Randomised Double blind
	3.2 EUDRACT link	Austria - BASG	60	3.2				
	3.3 EUDRACT link	Germany - PEI	372	3.3				
	3.1 EUDRACT							
4. EudraCT 2010-019730-27 113994	4.1 EUDRACT link	Germany - PEI	100	4.1	600	Phase II	Infants and toddlers Healthy volunteers Subjects incapable of giving consent personally	Prophylaxis Safety Efficacy Controlled Randomised Parallel group observer blind
	4.2 EUDRACT link	Czech Republic - SUKL	250	4.2				
	4.3 EUDRACT link	Poland - Office for Medicinal Products	400	4.3				
	4.4 EUDRACT link	Sweden - MPA	100	4.4				
	4.1 EUDRACT							
5. EudraCT 2012-001042-18 A3L40 U1111-1122-2362	5.1 EUDRACT link	Germany - PEI	265	5.1	795	Phase III	Infants and toddlers Healthy volunteers Subjects incapable of giving consent personally	Prophylaxis Safety Efficacy Controlled Randomised blind-observer (group 1 and group 2) and open-label (group 3)
	5.2 EUDRACT link	Czech Republic - SUKL	265	5.2				
	5.3 EUDRACT link	Spain - AEMPS	265	5.3				
	5.1 EUDRACT							

Summarizing EudraCT Clinical Trial Data- Enrollment [Trials CT-10]

How did we create this?

SEARCHES:

- **Clinical Trials:** We searched EudraCT (EU Clinical Trials) for pertussis trials and downloaded each page of trials.

BIZINT SMART CHARTS FOR CLINICAL TRIALS (VERSION 4.1 OR HIGHER)

1. Import each set of search results into BizInt Smart Charts and use **File | Combine** to create a combined chart.
2. Run the **Generate Common Trial IDs** tool and sort by Common Trial ID. Review and make changes if needed.
3. Display the Member State and Enrollment in State columns.
4. Save the chart and send to Reference Rows using the toolbar icon (or **File | Send to Reference Rows**).

BIZINT SMART CHARTS REFERENCE ROWS (VERSION 1.0.6 OR HIGHER)

5. When the Create Reference Rows wizard finishes, you will see the Selection View. Green check marks indicate the items selected by the database ranking and rules.
6. **Create the Subtable:** In the Selection View, run **Tools | Create Subtable from Columns**.
7. Select the Member State and Enrollment in State columns in that order and press Apply. A new column will be created containing a subtable with these two columns.
8. Double click on the column header to rename the new column from Untitled Subtable to "EU Trial Summary".
9. **Change the column rule to summarize enrollment for each trial:** Use **Reference Rows | Column Rules...** to set the rule for the new column to Summarize All Values. Blue hash marks will appear in the cells.
10. Hide any columns you do not want displayed in your final report.
11. Use **File | Export** to export the report to HTML and see the summary subtable.
