BIZINT

Smart Chat:
What are you doing this summer?

Diane Webb, John Willmore, Matt Eberle, and Bertha Adamson

18 June 2025

www.bizint.com

Our Summer Plans at BizInt

- Finishing up work on Version 6.0

- VP-SCE Version 16

- BizDash – Drug Landscapes

- New databases

- Supporting AI-generated content

- New dog pictures?

New in 2025

- Support for Patsnap Synapse and Bio (still in progress)
- New chart appearance
- New selection behavior

Version 6.0 coming this summer

- Improved Combine / Update workflow

- A few more fixes for the Smart Data Integrator (most importantly row shading)

- File format changes to support new capabilities

- Expect at least one more 5.x release
  Bug fixes, database changes

VP-SCE Version 16

- Major update to VantagePoint Smart Charts Edition, bringing it up to date with the current VantagePoint release

- Visualization updates, latest BizInt scripts

- Performance improvements

New Databases

- New EU Clinical Trial portal

- Possible changes to ClinicalTrials.gov

- Additional files on STNext

- Updating our "Surfing the Pipeline" analysis

- Systematic approach to "How Big Is Our Pipeline?"

BizDash – Drug Landscapes

- BizDash is a new service offering fast creation of drug and clinical trial landscapes — including powerful visualizations like pipeline bulleyes — integrating data from key pipeline and trial databases.

- Leverage your subscriptions and searches.

- Coming later this summer.

Supporting AI Content

- More of our partners are making AI generated content available in search results

- This content is likely to change from search to search

  - Some content reflects the content of the query

  - Models are changing frequently

- Making sure that we present this appropriately

Fall Calendar

- Pharma CI USA (Sept 17-18) Newark, NJ
- PhMTI Fall Seminar (Oct 28-29) Philadelphia, PA
- PIUG Reports and Visualization Event - ???
- A webinar or two
